

**ZEISSIG**

# We build your brand.

We are Zeissig. As the experts for realizing your brand in three dimensions, we work with passion on solutions which are just as ambitious as they are fascinating. When we build your brand, our comprehensive range of services always gives you the feeling that you are in very good hands.

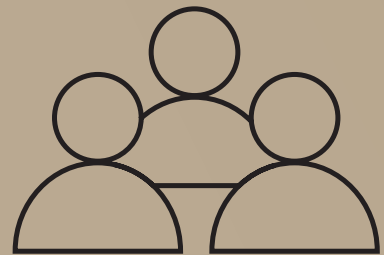

# With experience into the future

We are proud of our company and its history: our origins as a joinery, our continuous growth to an internationally active family-run business, and the uncompromising investment in new developments. Because the future has a long tradition in our company.

# Zeissig in figures

We work on numerous projects every day. At an enormous range of locations and with a large number of experts. But we always keep a very close eye on the main priority: bringing your brand alive.

**500**  
projects per year

# Our services are very diverse

The diversity of our services enables us to reveal all of the facets of your brand: whether temporarily at trade fairs, events or congresses, or stationary in shops, showrooms or shop systems. Our portfolio is rounded off by a comprehensive services concept.

Trade fair construction  
Events  
Event construction  
Congresses  
Exhibitions  
Galleries

Shop fitting  
Interior fittings  
Museum fittings  
Showrooms  
Shop-in-shops

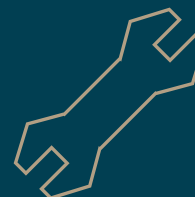

Hire furniture and creative rentals  
Value engineering  
Logistics service  
Warehousing service  
International service

# Our process is as comprehensive as it is flexible

Our process comprises all of the phases required for successful realization, and can react at any time to the individual requirements of our customers and their projects – completely independent of whether this involves a temporary or a stationary brand world (series production)

## Project development

The project development includes detailed communication on the purpose of the project as well as coordinating all of the realization phases. It is one of our priorities to ensure that our customers deal with the same contact throughout the whole process from end to end.

## Planning

Draft planning and visualization supplement our services depending on the type of project. The planning phase includes the technical elaboration of the project, the execution of plans, and the realization of ideas.

## Production

Ultra-modern production technologies are just as much part of the production process as traditional craftsmanship. Their clever combination guarantees the high quality implementation of the plans.

## Logistics & Assembly

Smooth logistics and order picking of all of the individual components, consumables and products is the basis for rapid uncomplicated assembly.

## Warehousing

When required, the proper warehousing and maintenance of reusable components is naturally a part of the overall process.

# Jointly successful world-wide

We have built up a network of experts from various disciplines. Together we deliver a comprehensive spectrum of services, and realize successful brand worlds around the globe.
